

Installation guide

Surfer bed with kitchen with splitting option - Viano (Fun) / V-Klasse / Vito with rail system / Pössl Vanstar / Marco Polo Activity/Horizon

1. Bed system assembly

- Place the extension board on the aluminium angles on the rear side of the kitchen and fix it with the included countersunk screws. Support the extension board with an aluminium pillar on each side (pic. 1+2).
- Flap triple-seat bench or single seat and position them about 10cm away from the rear kitchen (pic. 3).
- Lift the front edge of the sleeping board a little and pull it into the passenger compartment until it engages in the connection points. The wooden pillar swings out automatically (pic. 4/7).
- Unfold the mattress(es) into the passenger compartment...and have a good sleep on our cosy VanEssa bed (pic. 5/8).
- Only undivided surfer bed: As an optional fastening, fix the mount with the hammerhead screw in the airline rail and then fix the the wooden pillar to the mount with the star knob screw (pic. 6).

2. Storing

While driving, the sleeping board lies on the rear kitchen. For safety reasons, make sure that the bore holes on the bottom of the folding board(s) are engaged in the fittings of the rear kitchen. As an additional fastening, we recommend the use of a tension belt - especially when the surfer bed is used without any seats (pic. 9).
