

# Installation guide

## Bed system -

## Tourneo Connect KR / Grand Tourneo Connect LR

VanEssa  
mobilcamping

### 1. Rear board installation

- Lift the rear board into the vehicle. Tilt it a little for easier access (pic. 1).

*Note:* With the long wheelbase and 7 seats, the rearmost seat row needs to be flapped (pic. 2).

- Thread the hook screws left and right into the front and back tie-down rings (positions see pic. 3).

*Note:* With the short wheelbase the rear board is tied to all four tie-down rings, with the Grand Connect, omit the back (inner) ones.

- Fasten the included hook screws to fix the rear board (pic. 4).

### 2. Bed system assembly

#### short wheelbase:

- Open the folding bracket and put the open folding bracket behind the front seats (pic. 5).

*Note:* To close the bracket, press the feather buttons and flap the feet into the aluminium profile.

- Hang the folding boards into the connection points of the rear board and place it on the bracket (pic. 6).

- Extend the telescope bar until the feather clips engage. With the help of the included tension belts, tie the bar to the mount of the seat belts (pic. 7).

- Unfold the front part of the folding board above the aluminium bar (pic. 7).

#### long wheelbase:

- Fold seats and pull the folding board to out until it engages in the connection points of the rear board (pic. 8+9).

- Place the wooden pillar on the back of the folded seats (pic. 9).

- Unfold the mattress...and have a good sleep on our cosy VanEssa bed (pic. 10).

### 3. Storing

While driving with the sleeping board in storage position, make sure that the bore holes on the bottom are engaged in the fittings of the rear board - especially when it is used without any seats (safety reasons). As an additional fastening, you can fix board and mattress with tension belts (pic. 11).
