

# Installation guide

## Surfer bed (splittable) - NV200 Evalia

VanEssa  
mobilcamping

### 1. Rear board installation

- With the 7-seater, the rearmost seat row needs to be removed (pic. 1).
- Bare the screws of the rear tie-down rings and remove them (pic. 2). Place the included long nuts over the holes.
- Lift the rear board into the vehicle. Tilt it a little for easier access.
- Fasten the countersunk screws on each side through the rear board's angles and the long nuts into the threads of the tie-down rings (pic. 3).
- Trim the adjusting screws until they are fixed with the vehicle lining (pic. 4).

### 2. Bed system assembly

- Flap the front seat row (pic. 5).
- Lift the front edge of the sleeping board a little and pull it into the passenger compartment until it engages in the connection points. The wooden pillar swings out automatically (pic. 6/8).
- Unfold the mattress(es) into the passenger compartment...and have a good sleep on our cosy VanEssa bed (pic. 7/9).

10.

### 3. Storing

- While driving, the sleeping board lies on the rear board. For safety reasons, make sure that the bore holes on the bottom of the folding board are engaged in the fittings of the rear board.
- As an additional fastening, we recommend the use of a tension belt - especially when the bed is used without any seats (pic. 10).
