

Installation guide

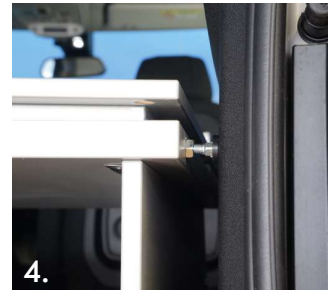

Bed system

Berlingo III/Rifter/Combo E/ProAce City

VanEssa
mobilcamping

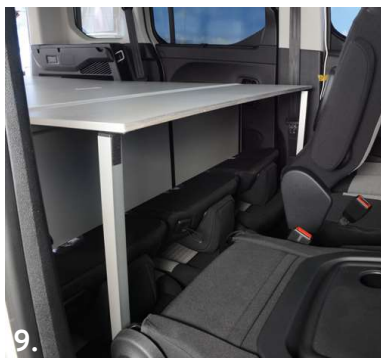

1. Rear board installation

- Lift the rear board into the back of the car (pic. 1) und push the board into the car untill it levels with the notch in the downside seat lining (pic. 2).
- Fix the rear board with the two lashing straps onto the tie-down rings and secure the fasteners with the locking pins (pic. 3).
- Trim the adjusting screws until they are fixed with the vehicle lining (pic. 4).

2. Bed system assembly

- Fold the back seats (pic. 5).
- Lift the folding board a little and pull it into the car untill the folding board engages in the connection points of the rear board. Thereby the wooden pillar swings out automatically (pic. 6+7).
- Secure the wooden pillar by plugging the included foam blocks into the notches on the back side of the folded seats (pic. 8).
- For the final bed length, unfold the front folding board und support it with the aluminium pillars (pic. 9).
- Unfold the mattress into the passenger compartment...and have a good sleep on our cosy VanEssa bed (pic. 10)!

3. Storing

While driving with the folding board in storage position, make sure that the bore holes on the bottom are engaged in the fittings of the rear board - especially when it is used without any seats (safety reasons). As an additional fastening, you can fix board and mattress with tension belts (pic. 11).
