

Installation guide

Bed system with kitchen - VW Caddy Maxi 5 / Ford Grand Tourneo Connect (long wheelbase) from YOC 2022

1. Bed system assembly

- Hang the sleeping boards to the connection points of the rear kitchen, unfold the wooden pillar of the bottom one and stick the wooden pillar with the Velcro to the carpet behind the seats (pic. 1+2).
- Fold the seats and place the closed folding bracket on the back side of the seats (pic. 3).
- Lift the upper sleeping board a little, pull it to the front and place it on the folding bracket (pic. 4).
- Unfold the mattress into the passenger compartment...and have a good sleep on our cosy VanEssa bed (pic. 5)!

without seats/only double-seat bench:

- Unfold either one foot or both feet of the folding bracket and place it on the double-seat bench or respectively place it in the footspace behind the front seats (pic. 4, variant double-seat bench).

Note: To close the bracket, press the feather buttons and flap the feet into the aluminium profile.

- To stabilize the support, a set screw was mounted below the support foot (pic. 6).
- Place the foot of the folding support in the engagement bolt (pic. 7).

2. Storing

- While driving, push the front sleeping board under the mattress on the rear sleeping board (with the wooden pillar) until it engages in the connection points (pic 8).
- With seats inside you can access the storage space under the sleeping boards by lifting the boards and placing the wooden pillar on the folded seats (pic. 1).
