

Installation guide

Bed system VW Touran I (until 08/2015)

VanEssa
mobilcamping

1. Rear board installation

- Remove one of the screws of the tie-down rings. The tie-down ring itself and the second screw remain (pic. 1).
- 5-seater without trunk floor: Remove each the rear screw of the two inner tie-down rings (pic. 2a)
- 7-seater/5-seater with floor: Remove the two inner and the two rear tie-down rings (pic. 2b)
- Lift the rear board into the vehicle. Tilt it a little for easier access (pic. 3).
- Fix the rear board by tightening the star knob screws into the threads of the tie-down rings (pic. 2a+2b).
- Mount the adjusting screws on both sides until they are fixed with the vehicle lining (pic. 4).

2. Bed system assembly

- Fold the back seats (pic. 5).
- Open the folding bracket and put the open folding bracket behind the front seats (pic. 6).
- Note:* To close the bracket, press the feather buttons and flap the feet into the aluminium profile.
- Lift the front edge of the sleeping board a little and pull it into the passenger compartment until it engages in the connection points of the rear board and the folding bracket (pic. 7).
- Push driver's and co-driver's seat to the front and fold them. Unfold the front part of the folding board (pic. 8).
- Unfold the mattress into the passenger compartment...and have a good sleep on our VanEssa bed (pic. 9+10).

3. Storing

While driving with the folding board in storage position, make sure that the bore holes on the bottom are engaged in the fittings of the rear board - especially when it is used without any seats (safety reasons). As an additional fastening, you can fix board and mattress with tension belts (pic. 11).
