

# Installation guide

## Bed system VW Touran I (from 09/2015)

VanEssa  
mobilcamping

### 1. Rear board installation

- Remove the screws of the rear tie-down rings and take the rings out (pic. 1).
- Lift the rear board into the vehicle. Tilt it a little for easier access (pic. 2).
- Fix the rear board by tightening the countersunk screws into the threads of the tie-down rings (pic. 3).
- Note: With the Touran II 5-seater, there are no aluminium angles on the rear board.*
- Mount the adjusting screws on both sides until they are fixed with the vehicle lining (pic. 4).

### 2. Bed system assembly

- Fold the back seats (pic. 5).
- Lift the front edge of the sleeping board a little and pull it into the passenger compartment until it engages in the connection points of the rear board. Place the wooden side on the back of the seats (pic. 6).
- Push driver's and co-driver's seat to the front and fold them. Unfold the front part of the folding board.
- Unfold the mattress into the passenger compartment...and have a good sleep on our VanEssa bed (pic. 7+8).

### 3. Storing

While driving with the folding board in storage position, make sure that the bore holes on the bottom are engaged in the fittings of the rear board - especially when it is used without any seats (safety reasons). As an additional fastening, you can fix board and mattress with tension belts (pic. 9).
