

Installation guide

Inside table - Caddy 3/4 / Caddy Maxi 3/4

1. Table assembly

Thread the lashing straps through the slots in the board with the straps forming a triangle. Hang the straps with the carabiner around to the head rests on both seats (pic. 1+2).

2. Storing

While driving, the inside table can be stored in the back (e.g. on the rear kitchen or rear board). Or can also be handily stored in the passenger compartment.
